

To parents and legal guardians
of children in urban daycare centers
and schools sponsored by the city of Bingen

Emergency care in the daycare centers and schools sponsored by the city of Bingen

Dear parents and legal guardians,
From Monday, March 16, 2020, all municipal daycare centers and schools will be closed until the end of the Easter vacation.

There will be emergency care for children whose parents have essential professions for the maintenance of health care, public security and order as well as basic care for the population and for whom no other care option is available.

We explicitly point out that emergency care will only take place after an entry control. Children with an increased risk (with previous illnesses, with suppressed immune systems, with acute infections) cannot be taken care of. Sick children need to be picked up immediately. During the emergency care no food will be offered, so please prepare lunch packages for your children.

The goal is to slow down the containment and the spreading of the Corona virus. For that reason, it is absolutely necessary, to restrict the emergency care to a minimum. We therefore ask that you only use emergency care in urgent cases.

This regulation applies to all institutions with urban sponsorship:

- Daycare center "Mäuseturm"
- Integrative daycare center "Farbenfroh"
- Daycare center "Sonnenschein"
- Day care center at Klopp Castle
- Daycare center "Mondschaukel"
- Day nursery "Pfiffikus"
- Daycare and day nursery "Wuselkiste"
- All primary schools and supporting primary schools in Bingen
- Realschule plus Am Scharlachberg

Updated information is available at www.bingen.de.

This is an absolutely exceptional situation, so we urgently need your support.

Thank you for your support.

Sincerely yours

Associate
